Mattia Preti

Taverna (Catanzaro), 1613 -
La Valletta, 1699

Partito dalla Calabria per raggiungere
a Malta il fratello Gregorio, a sua volta
folgoreo successo che ne fa in breve
tempo uno dei più autorevoli pittori
meridionali della seconda metà

del Seicento: basti pensare che
1642, a soli 29 anni, viene nominato
Cavaliere di Malta. Il Preti viene
solito inserito nella scuola napoletana,
ma la prima fase della carriera si
svolge a Roma, dove affresca tra l'altro
le magniloquenti Storie di sant'Andrea
in Sant'Andrea della Valle. Vastissimo
è il raggio dei suoi interessi, dal
naturalismo di Caravaggio al colore

dei grandi maestri veneziani. Nel 1653
si trasferisce a Modena, dove affresca
l'abside e la cupola di San Biagio.
Il soggiorno al nord allarga
ulteriormente la sua cultura artistica,
che si dispiega con piena maturità
e originalità nel non lungo ma decisivo
periodo napoletano (1656-1660),
durante il quale Mattia Preti dipinge
a ritmo intensissimo molti dei suoi

principali capolavori, in parte
a Napoli (Capodimonte, Palazzo
Reale), in parte emigrati
e segnatamente nei musei
Dal 1661, alternando
a Malta, alternando
e affreschi nelle
con periodici
natale, che
